DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 11 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 11 and 12 recite the limitation "attachment device" in lines 1 and 2. There is insufficient antecedent basis for this limitation in the claims.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-3, 5, 8-20, and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Lauritzen US Pub. No 2004/0082932.

As to claims 1, 5, 7, 8, 23, and 24, see Figure 2 where Lauritzen discloses a flexible base sheet 2, left and right straps 1, and absorbent pad 16.

As to claims 2, 3, 15, and 16, see paragraph 0024.

As to claim 9, see Figure 3 paragraph

As to claims 11-13, see paragraphs 0034 and 0038.

As to claim 14, see paragraph 0023.

As to claim 17, see paragraph 0026.

As to claims 18-20, see paragraph 0029 and 0030.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 21 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lauritzen US Pub No. US 2004/0082932 in view of Runeman et al WO 91/07155. Lauritzen discloses the present invention substantially as claimed except Lauritzen does not disclose a genital receiving cup having elastic seams. Runeman discloses a genital receiving cup with elastic seams for fitting beneath the scrotum of a wearer and to lie

close to the wearer in use. One having ordinary skill in the art would be motivated by the teaching of Runeman to modify the pad of Lauritzen to placement on a male user.

Allowable Subject Matter

7. Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
